

Europe Home Security Limited - Sustainability Policy

Europe Home Security Limited (EHS) strives to rebrand simple and environmentally sustainable products for a better planet.

Our approach to business is guided by commitments to the following principles:

- *Leadership*
- *Social cohesion*
- *Opportunity*
- *Transparency*
- *Integrity*
- *Continuous Improvement and development*

EHS faces many challenges and opportunities. Due to their direct impact on us and anyone directly or indirectly involved in EHS we have prioritized the following issues that need to be addressed on a continual basis:

- *Climate change*
- *Water conservation*
- *Health and safety*
- *Financial solvency*

We believe in using the Earth's resources wisely as we conduct our business activities. We also believe we have the power to make a positive human impact on the diverse people we touch and will make a commitment to offer opportunities to all wherever possible.

Our attention to environmental, social and economic responsibility includes working within the law and voluntarily exceeding legal requirements in order to be innovative and demonstrate leadership on the issues that are important to us and our business partners. We are committed to demonstrating our commitment every day in big and small ways and how our actions and words can help to build a better quality of life for our employees, customers and suppliers.

We commit to:

Minimize environmental impacts in the areas of waste, water, energy and air quality:

Recycling packing material where possible

Recycling product returns where possible

Offering a future battery recycle facility for batteries used in our products

Using energy saving electronic equipment

Using small compact vehicles that are fuel efficient

Donating 5% of our net profits to local communities

Requesting environmental policy information from our suppliers

Innovating to reduce negative environmental impacts

We will report on our progress and conduct management reviews against these goals once per year starting from September 2015.
